## **Contents**

Candle in the Mirror is divided into four sections.

### **1. History of Adoption**

I felt perhaps to give a resume of the History of Adoption might prove useful. The aim is to give insight into how, the accepted adoption practices used today have evolved over the decades.

### **2. Photograph Album**

The second part has the title Photograph Album. It contains a series of 'snapshots' represented by a collection of short scenes from my formative years.

### **3. The Twitch on the Thread.**

This section tells my story of a search and journey to self which spans a quarter of a century.

Finally, there is a transcript of an interview with an adoption social worker. He is someone who was a great help and support to me.
